

LANDMARKS AND TRADITIONS OF SODUS

Sodus is the site of several historic structures. In 1989, the township of Sodus will celebrate its 200th birthday. Several historic structures remain that are interesting clues to the history of Sodus.

Limekiln

The Thornton Limekiln is located at the fork on South Geneva Road. It may have been built in the early 1800's, even though the date 1851 is found on the reinforced front. The inside of the structure was probably built of fire-resistant sandstone.
